NIH Publishing Agreement & Manuscript Cover Sheet

By signing this Cover Sheet, the Author, on behalf of NIH, agrees to the provisions set out below, which modify and supersede, solely with respect to NIH, any conflicting or ambiguous provisions that are in the Publisher’s standard copyright agreement (the “Publisher’s Agreement”). NIH and Author accept only those provisions of the Publisher’s Agreement that are consistent with the provisions herein, and only to the extent that they are directly related to the disposition of copyrights or duties of the parties that are directly related to the subject “Work.” If a Publisher’s Agreement is attached, execution of this Cover Sheet constitutes an execution of the Publisher’s Agreement, subject to the provisions and conditions of this Cover Sheet.

1. **Indemnification.** No Indemnification or “hold harmless” obligation is provided by either party.

2. **Governing Law.** This agreement will be governed by the law of the court in which a claim is brought.

3. **Copyright.** Author’s contribution to the Work was done as part of the Author’s official duties as a NIH employee and is a Work of the United States Government. Therefore, copyright may not be established in the United States. 17 U.S.C. § 105. If Publisher intends to disseminate the Work outside of the U.S., Publisher may secure copyright to the extent authorized under the domestic laws of the relevant country, subject to a paid-up, nonexclusive, irrevocable worldwide license to the United States in such copyrighted work to reproduce, prepare derivative works, distribute copies to the public and perform publicly and display publicly the work, and to permit others to do so.

4. **No Compensation.** No royalty income or other compensation may be accepted for work done as part of official duties. The author may accept for the agency a limited number of reprints or copies of the publication.

5. **NIH Representations.** NIH represents to the Publisher that the Author is the sole author of the Author’s contribution to the Work and that NIH is the owner of the rights that are the subject of this agreement; that the Work is an original work and has not previously been published in any form anywhere in the world; that to the best of NIH’s knowledge the Work is not a violation of any existing copyright, moral right, database right, or of any right of privacy or other intellectual property, personal, proprietary or statutory right; that where the Author is responsible for obtaining permissions or assisting the Publishers in obtaining permissions for the use of third party material, all relevant permissions and information have been secured; and that the Work contains nothing misleading, obscene, libelous or defamatory or otherwise unlawful.

6. **Disclaimer.** NIH and the Author expressly disclaim any obligation in Publisher’s Agreement that is not consistent with the Author’s official duties or the NIH mission. NIH and the Author do not disclaim obligations to comply with a Publisher’s conflict of interest policy so long as, and to the extent that, such policy is consistent with NIH’s own conflict of interest policies.

7. **For Peer-Reviewed Papers to be Submitted to PubMed Central.** The Author is a US government employee who must comply with the NIH Public Access Policy, and the Author or NIH will deposit, or have deposited, in NIH’s PubMed Central archive, an electronic version of the final, peer-reviewed manuscript upon acceptance for publication, to be made publicly available no later than 12 months after the official date of publication. PubMed Central may tag or modify the work consistent with its customary practices.

The NIH Deputy Director for Intramural Research, Michael Gottesman, M.D., approves this publishing agreement and maintains a single, signed copy of this text for all works published by NIH employees, contractors and trainees who are working at the NIH. No additional signature from Dr. Gottesman is needed.

Authorship Responsibility and Copyright Transfer Agreement

Each author must read and sign the statements in sections 1. (Authorship Responsibility, Criteria, and Contributions) and 2. (either Copyright Transfer or For U.S. Government Employee Authors). If needed, photocopy and distribute this document to coauthors.

Journal: Stroke

Manuscript number: 2014/006062R1

First author: Luby, Mane

   Each author should meet all criteria below (A, B, and C) and should indicate general and specific contributions by reading the criteria and checking the appropriate lines.
   ✔ A. I certify these three things:
      • The manuscript represents valid work and neither it nor another one that I have written with substantially similar content has been published or is being considered for publication elsewhere, except as described in an attachment.
      • If asked, I will provide or fully cooperate in obtaining and providing the data on which the manuscript is based so the editors or their assignees can examine it.
      • For papers with more than 1 author, I agree to allow the corresponding author to
        – be the main correspondent with the editorial office,
        – review the edited manuscript and proof, and
        – make decisions about releasing manuscript information to the media, federal agencies, or both.
   If I am the only author, I will be the corresponding author and agree to handle these responsibilities.
   B. I have given final approval of the submitted manuscript.
      ✔ Yes  ___ No
   C. I have, or a coauthor has, had sufficient access to the data to verify the manuscript’s scientific integrity.
      ✔ Yes  ___ No
   D. I have participated sufficiently in the manuscript to take public responsibility for (check only one)
      ✔ part of the content  ___ the whole content.
   E. To qualify for authorship, you must have made substantial contributions to the intellectual content of the paper. Please indicate your contribution(s) to this manuscript.
      Check all that apply.
      ✔ conceived and designed the research  ___ acquired the data  ___ analyzed and interpreted the data  ___ performed statistical analysis  ___ handled funding and supervision  ___ drafted the manuscript  ___ made critical revision of the manuscript for important intellectual content  ___ other (specify)

2. Acknowledgment Section (for Corresponding Author Only).
   Authors should obtain written permission from all individuals who are listed in the Acknowledgments section of the manuscript, because readers may infer their endorsement of data and conclusions. The corresponding author must sign the following statement, certifying that (1) all persons who have made substantial contributions in the manuscript (eg, data collection, analysis, or writing or editing assistance), but who do not fulfill authorship criteria, are named with their specific contributions in the Acknowledgments section of the manuscript; (2) all persons named in the Acknowledgments section have provided the corresponding author with written permission to be named in the manuscript; and (3) if an Acknowledgments section is not included, no other persons have made substantial contributions to this manuscript.

3. Copyright Transfer Agreement.
   The American Heart Association, Inc. (AHA), a New York not-for-profit corporation, located at 7272 Greenville Avenue, Dallas, Texas 75231, and the Author hereby agree:
   In consideration of the AHA reviewing and editing the Work described below for first and exclusive publication,
   Journal
   Manuscript number
   First author
   Title of Work
   ______________________________________________________________
   ______________________________________________________________
   The author who signs below hereby assigns, conveys, and otherwise transfers all rights, title, interest, and copyright ownership in this Work to the AHA when the AHA accepts it for publication.
   • “Work” means the material submitted for publication plus any other related material submitted to the AHA.
   • The rights assigned to the AHA include (but are not limited to) the rights to
     – edit, publish, reproduce, distribute copies, prepare derivative works, include in indexes or search databases in print, electronic, or other media, (whether or not they are used when this agreement is executed), and
     – claim copyright in this Work throughout the world for as long as it is copyrighted, including renewals or extensions.
   All accepted Works become the AHA’s property and may not be published elsewhere without the AHA’s prior written permission.
   • Authors may use parts of the Work (eg, tables, figures) in subsequent works without asking the AHA’s permission.
   For Works created under grant and accepted for publication in an AHA journal, the author may cause the Accepted Version of the Work to be posted on the Web archive of a body that funded all or part of the Work, and/or an author’s institutional repository, provided that this post appears no sooner than 6 months after the AHA publishes the Work in a journal and that

the archive is publicly and noncommercially available via the World Wide Web.
- The “Accepted Version” means the paper includes peer review changes but not AHA’s copyediting and production changes.
- “No sooner than 6 months after the AHA publishes the Work” means at least 6 months after the first appearance of the Work either on the AHA journal’s Web site as a publish-ahead-of-print article or on the AHA journal’s Web site published as part of a regular issue.

Public Access Policy Funding Disclosure:
Please disclose below if the author has received funding for research on which the article is based from any of the following organizations:

- National Institutes of Health (NIH)
- Wellcome Trust
- Howard Hughes Medical Institute (HHMI)
- Other (please list)

Authors hereby represent and warrant that
- they are the sole authors of the Work,
- all authors have participated in and agree with the content and Work’s conclusions,
- the Work is original and does not infringe upon any copyright, proprietary, or personal right of any third party, and
- no part of it nor any Work based on substantially similar data has been submitted to another journal for publication.

If the AHA does not publish this Work, the authors will be notified and all rights given to the AHA will revert to them. If this is a joint Work, all coauthors must transfer rights in this Work to the AHA by executing this Agreement. This Agreement must be executed as is without revision or substitution of terms. The author's original, handwritten signature is required. This Agreement is governed by the laws of the United States.
