A New Face Uplift

J. Terrence Jose Jerome¹¹ Department of Orthopedics, Hand & Reconstructive Microsurgery, Olympia Hospital & Research Centre, Trichy, India

J Hand Microsurg 2016;8:1.

We are incredibly excited to bring you this issue of the *Journal of Hand and Microsurgery* after being associated with our new publishing partner, Thieme. Complementing to this, the online and print versions would now be published three times a year from 2016.

In this fresh and cheering association with Thieme and as a result of this giant leap, the journal is appearing brighter with more interesting articles in the lineup. I believe this will surely enlighten and maintain the complete attention of our esteemed readers.

We welcome authors to submit their manuscripts through our journal website and get very swift and quick assessments and decisions on their work. I would like to mention that our fast review process will surely ensure prompt delivery of the manuscripts to the indexing agencies at appropriate time intervals.

In future, we wish to have special editions for wrist, hand, microsurgery, supplements, video sessions, surgical techniques, and a lot more interesting topics.

Good luck! Happy reading.
