Corrigendum

Trans-activation of HIV-1 LTR-directed gene expression by tat requires protein kinase C

by Aya Jakobovits, Arnon Rosenthal and Daniel J.Capon

In the above paper, the last two authors made equal contributions to the manuscript. A note stating this was accidentally omitted during the submission process.

Erratum

Efficient translocation of positively charged residues of M13 procoat protein across the membrane excludes electrophoresis as the primary force for membrane insertion

by Andreas Kuhn, Heng-Yi Zhu and Ross E.Dalbey

Colony-stimulating factor 1 activates protein kinase C in human monocytes

by Kyoko Imamura, Ann Dianoux, Takashi Nakamura and Donald Kufe

The final pages of the above papers were regrettably transposed during pagination. The last page of Kuhn et al. (1990) is printed on page 2429; and the last page of Imamura et al. (1990) is printed on page 2389.
