CORRIGENDUM

In the paper by THOMAS P. BRUTNELL and STEPHEN L. DELLAPORTA (*GENETICS* **138**: 213–225; September, 1994) entitled “Somatic inactivation and reactivation of *Ac* associated with changes in cytosine methylation and transposase expression,” on page 221, the legend to Figure 6 was duplicatively transposed into the text in the second column. The column becomes sensible by deleting the block of text starting with the terminal “6” in line 9 and ending with “les were used.” in line 27.
