NEW EMBO MEMBER'S REVIEW

Addressing protein localization within the nucleus

Wendy A.Bickmore and Heidi G.E.Sutherland

The EMBO Journal, **21**, 1248–1254, 2002

In Figure 3, the proportion of aspartic acid residues (D) in nucleolar proteins should be 5.3%, not 12% as shown. The authors would like to apologize for this error and for any confusion caused.

The cell morphogenesis gene *ANGUSTIFOLIA* encodes a CtBP/BARS-like protein and is involved in the control of the microtubule cytoskeleton

**U.Folkers, V.Kirik, U.Schöbinger, S.Falk,
S.Krishnakumar, M.A.Pollock,
D.G.Oppenheimer, I.Day, A.R.Reddy, G.Jürgens
and M.Hülkamp**

The EMBO Journal, **21**, 1280–1288, 2002

In the list of authors for this paper, the initials for A.R.Reddy should have been A.S.N. This also applies to the unpublished results and manuscript in preparation cited in the text. The authors would like to apologize for any confusion caused by this error.
