ATP Synthase Is Necessary for Microcin H47 Antibiotic Action

Mónica Trujillo, Eliana Rodríguez, and Magela Laviña

*Sección de Fisiología y Genética Bacterianas, Facultad de Ciencias, Iguá 4225, Montevideo 11.400, and División
Biología Molecular, Unidad Asociada a Facultad de Ciencias, Instituto de Investigaciones
Biológicas Clemente Estable, Avenida Italia 3318, Montevideo 11.600, Uruguay*

Volume 45, no. 11, p. 3128–3131. Page 3128, column 2, line 2: The sentence should read “In brief, it comprises four genes involved in microcin synthesis (one of them being the microcin structural gene), two further genes devoted to microcin secretion, and an immunity gene whose product protects the cell against its own antibiotic production (2, 12, 30, 31).”
