corrigendum

Activation of IKK by thymosin α 1 requires the TRAF6 signalling pathway

Ping Zhang, Justin Chan, Ana-Maria Dragoi, Xing Gong, Stanimir Ivanov, Zhi-Wei Li, Tsung-Hsien Chuang, Cynthia Tuthill, Yinsheng Wan, Michael Karin & Wen-Ming Chu

EMBO reports (2005) 6, 531–537. doi:10.1038/sj.embor.7400433

It has recently come to our attention that Fig 2B is incorrect. The correct figure appears here. This change has no effect on our conclusion that IKK β is required for activation of IKK and NF- κ B by thymosin α 1.
