Correction to: *The EMBO Journal* (2011) **30**, 634–635. doi:10.1038/emboj.2011.12

In the ‘Have you seen’ article above, it was stated that ‘AMPK is activated by increases in ADP and AMP’, and ADP was shown in Figure 1, even though the evidence supporting that statement had not been published and was not cited. The evidence is now published.

[‘Structure of mammalian AMPK and its regulation by ADP’ by Xiao *et al* (2011) *Nature* **472**: 230–233].

Grahame Hardie would like to apologize for this oversight.
