“Explanted” GDCs

G. GUGLIELMI

Professor of Neuroradiology, “La Sapienza” University, Rome; Italy

Dear Colleagues:

The reason I am writing this note is that I have to perform a metallurgic analysis of GDC coils after their implant in an aneurysm. In particular, I need GDC coils implanted for *more than 3 months* in the aneurysm of a patient, and that thereafter are surgically removed during clipping of the residual aneurysm. Otherwise, the GDC coils of a patient that dies for any cause, and that undergoes autopsy.

A brief clinical summary of the patient is welcome.

The GDC coils and the summary should be sent to my address:

Thank you very much.

Guido Guglielmi
