“Recent advances for the treatment of cocaine abuse: central nervous system immunopharmacotherapy. AAPS Journal. 2005; 07(03): E579-E586” has been retracted because of a substantial degree of duplication with “Bacteriophage-mediated protein delivery into the central nervous system and its application in immunopharmacotherapy. Expert Opin Biol Ther. 2005 Jun;5(6) 773–781.” [With a link to the EOBT article]
