MT1-MMP Cleavage of the Antiangiogenic Proteoglycan Decorin: Role in Corneal Angiogenesis: Retraction

It has come to our attention that the above article, which was published in the Supplement to the October 2011 issue of *Cornea*, was a duplicate publication of an article published in *J Vasc Res* in 2009. The authors have agreed to retract the paper published in *Cornea*. This has been noted in the online version of the article, which is available at www.corneajrnl.com.
