erratumSrc-dependent autophagic degradation of Ret
in FAK-signalling-defective cancer cells*Emma Sandilands, Bryan Serrels, Simon Wilkinson & Margaret C. Frame*

doi:10.1038/embor.2012.126

Correction to: EMBO reports (2012) 13, 733–740. doi:10.1038/embor.2012.92

In this article, published online 26 June 2012 and in the August issue, on page 739 in paragraph three, we expanded the acronym TK to read “thymidine kinase” rather than “tyrosine kinase”. The correct sentence should read:

More work is needed to establish the full range of tyrosine kinases that are targeted to autophagosomes upon adhesion stress (beyond the scope here), which may permit identification of a range of tyrosine kinase inhibitors that could be of therapeutic value when used in conjunction with autophagy inhibitors.

We apologize for this error.
