Erratum to: Clin Orthop Relat Res DOI 10.1007/s11999-012-2740-6

In the Results section of the abstract, the sentence “In contrast, the subgroup of athletes with a closed growth plate only had increased epiphyseal extension at the 3 o’clock position compared with the athletes with a closed

growth plate (0.64–0.70)”, is incorrect. The sentence should state, “In contrast, the subgroup of athletes with a closed growth plate only had increased epiphyseal extension at the 3 o’clock position compared with the athletes with an open growth plate (0.64–0.70)”.

The authors apologize for this error.
