Journal Correction

The January 2012 article by Fasola et al, entitled, “A Model to Estimate Human Resource Needs for the Treatment of Outpatients With Cancer” (J Oncol Pract 8:13-17, 2012), contained an error.

In the Abstract, under Results, the second sentence was given as, “Assuming an average of 1,672 annual working hours, a need for one physician and three nurses for every 600 patients could be estimated for every 200 novel patients.”

Whereas it should have been, “Assuming an average of 1,672 annual working hours, a need for one physician and three nurses could be estimated for every 200 novel patients.”

Journal of Oncology Practice apologizes for the mistake.

Author Correction

The May 2013 article by Efstathiou, et al, entitled, “Practice-Based Evidence to Evidence-Based Practice: Building the National Radiation Oncology Registry” (J Oncol Pract 9:e90-e95, 2013), contained an error.

In Table 1, the acronym for the European Association of Urology appeared as EUA in the Source column and the foot-

note, whereas it should have been EAU. The authors apologize for the mistake.
