In a recent publication, we made an error while producing final figures for publication.¹ The coherence frequency axis, ω_c , and the rephrasing frequency axis, ω_r , were exchanged. This error appears in figure 3 and supporting figures S3, S4, and S5; the error does not affect any conclusions drawn in the paper. Corrected figures are included in supporting information to this correction.

We apologize for any inconvenience these errors may have caused our readers.
