Erratum

Pulm Circ 2014;4(3):531. DOI: 10.1086/678212.

In “Repair of congenital heart disease with associated pulmonary hypertension in children: what are the minimal investigative procedures? Consensus statement from the Congenital Heart Disease and Pediatric Task Forces, Pulmonary Vascular Research Institute (PVRI),” by Lopes et al.

(*Pulmonary Circulation* 4:330–341), there is an error in Table 3, which appears on page 339. For “Pulmonary-to-systemic blood flow ratio ($Q_p:Q_s$),” the entry in the “Unfavorable” column should be “ $<2.0:1$.”

The publisher regrets this error.
