Correction

IMMUNOLOGY

Correction for “Inflammatory monocytes and Fcγ receptor IV on osteoclasts are critical for bone destruction during inflammatory arthritis in mice,” by Michaela Seeling, Ulrike Hillen hoff, Jean Pierre David, Georg Schett, Jan Tuckermann, Anja Lux, and Falk Nimmerjahn, which appeared in issue 26, June 25, 2013, of *Proc Natl Acad Sci USA* (110:10729–10734; first published June 10, 2013; 10.1073/pnas.1301001110).

PNAS notes that a conflict of interest statement was omitted during publication. PNAS declares that “The editor, Jeffrey Ravetch, is a recent coauthor with an author (F.N.) of this publication, having last published a paper with him in 2010.”
