Correction

'Survey of the UK veterinary profession 2: sources of information used by veterinarians' (VR, August 15, 2015, vol 177, p 172). In the print summary for this paper, in Table 1, column three (Clinicians), the fourth and fifth row should have read '*UK Vet* (1812, 46%)' and '*JSAP* (1659, 42%)', respectively. In addition, in column six, the last row should have read '*EVE*' for *Equine Veterinary Education*. The errors are regretted.
