Correction to: *The EMBO Journal* (2002) 21: 5477–5486. DOI 10.1093/emboj/cdf545 | Published online 15 October 2002

We have found that panel H in Figure 5 is mistakenly a duplication of panel E in Figure 8. According to our inspection of the original data sets, this is due to a mistake during the assembly of the panels.

We show here the amended Figure 5, with the correct original image for panel H (*crq* expression in *twist*-GAL4; UASSrpC background). The change does not affect the original conclusions presented.

Figure 5.
