SI Correction

MICROBIOLOGY

Correction to Supporting Information for “Unveiling the biosynthetic puzzle of destruxins in *Metarhizium* species,” by Bing Wang, Qianjin Kang, Yuzhen Lu, Linqun Bai, and Chengshu Wang, which appeared in issue 4, January 24, 2012, of *Proc*

Natl Acad Sci USA (109:1287–1292; first published January 9, 2012; 10.1073/pnas.1115983109).

The authors note that Fig. S1 appeared incorrectly. The SI has been corrected online.

Fig. S1. Phylogenetic analysis. (A) Analysis of *M. robertsii* (loci tagged as MAA) and *M. acridum* (loci tagged as MAC) NRP5s based on their adenylation domain sequences. The domains highlighted in bold indicate that the corresponding NRP5 gene is present in one species but absent in the other. (B) Phylogenetic and signature analysis of DtxS1 A domains. (C) Analysis of DtxS1 C domains.
