SAVE LIVES:
Clean **Your** Hands

5 MAY 2015

***Strengthening healthcare systems and delivery –
hand hygiene is your entrance door.***

The WHO **Clean Care is Safer Care** announces it's annual hand hygiene campaign theme and call to action. The **WHO focus** remains on improving and sustaining hand hygiene and helping to save lives by reducing healthcare associated infection. In recent times, fundamental infection prevention 'weaknesses' have again surfaced around the world, in both developed and developing countries, in relation to both knowledge and/or practice – strong healthcare systems can combat these weaknesses.

Register your health-care facility in the WHO SAVE LIVES: Clean Your Hands global campaign NOW if you have not already done so.
