Corrigendum

DNA damage-induced apoptosis requires the DNA-dependent protein kinase, and is mediated by the latent population of p53

Correction to: *The EMBO Journal* (2002) **21**, 3000–3008. doi:10.1093/emboj/cdf307

Due to an author error, Figures 3B and 4 (upper panels) of the above article were published incorrectly.

The figures show results obtained with wild-type (for Figure 3B) and DNA-PK +/– or –/– MEFs (for Figure 4) and not E1A-expressing MEFs as stated in the figure legend. Similar results were, however, obtained with E1A-expressing MEFs.

The authors apologise for this error.
