Correction to: *The EMBO Journal* (2017) 36: 840–853. DOI 10.15252/embj.201694969 | Published online 2 March 2017

We have found that panel A in Figure 5 (subpanel Old + C) is mistakenly a duplication of panel H in Figure 4 (subpanel Old + FL). According to our inspection of the original data sets, this is due to a mistake during the assembly of the panels. We

show here the amended correct images for Figure 5, panel A (Old + C).

The change does not affect the original conclusions presented. We apologize for this mistake. All authors approve of this correction.

Figure 5. Figure 5A, with correct panel Old + C.
