Erratum

Erratum. Comprehensive Medical Evaluation and Assessment of Comorbidities. Sec. 3. In *Standards of Medical Care in Diabetes—2017*. *Diabetes Care* 2017;40(Suppl. 1):S25–S32

American Diabetes Association

<https://doi.org/10.2337/dc17-er07>

On page S29 of the article listed above, the second recommendation for Anxiety Disorders has been corrected to read: “People with hypoglycemia unawareness, which can co-occur with fear of hypoglycemia, should be treated using blood glucose awareness training (or other evidence-based similar intervention) to help re-establish awareness of hypoglycemia and reduce fear of hypoglycemia.”

The online version of the article has been corrected.
