Correction to “A Generic Approach to Pathological Lung Segmentation”

Awais Mansoor [Member, IEEE],

Department of Radiology and Imaging Sciences, National Institutes of Health (NIH), Bethesda, MD 20892 USA

Ulas Bagci [Member, IEEE],

Department of Radiology and Imaging Sciences, National Institutes of Health (NIH), Bethesda, MD 20892 USA

Ziyue Xu,

Department of Radiology and Imaging Sciences, National Institutes of Health (NIH), Bethesda, MD 20892 USA

Brent Foster,

Department of Radiology and Imaging Sciences, National Institutes of Health (NIH), Bethesda, MD 20892 USA

Kenneth N. Olivier,

Immunopathogenesis Section, Laboratory of Clinical Infectious Diseases National Institute of Allergy and Infectious Diseases, National Institutes of Health, Bethesda, MD 20892 USA

Jason M. Elinoff,

Critical Care Medicine Department, Clinical Center, National Institutes of Health, Bethesda, MD 20892 USA

Anthony F. Suffredini,

Critical Care Medicine Department, Clinical Center, National Institutes of Health, Bethesda, MD 20892 USA

Jayaram K. Udupa [Fellow, IEEE], and

Department of Radiology, University of Pennsylvania, Philadelphia, PA 19104 USA

Daniel J. Mollura

Department of Radiology and Imaging Sciences, National Institutes of Health (NIH), Bethesda, MD 20892 USA

In the above paper [1], Awais Mansoor was incorrectly indicated as the corresponding author. Ulas Bagci should have been indicated as the corresponding author.

Personal use is permitted, but republication/redistribution requires IEEE permission. See http://www.ieee.org/publications_standards/publications/rights/index.html for more information.

Correspondence to: Ulas Bagci.

Color versions of one or more of the figures in this paper are available online at <http://ieeexplore.ieee.org>.

Acknowledgments

This work was supported by Center for Infectious Disease Imaging (CIDI), the intramural research program of the National Institute of Allergy and Infectious Diseases (NIAID), and the National Institute of Biomedical Imaging and Bioengineering (NIBIB).
