May 29, 2013

Dear Dr. Royer,

We are requesting the following Erratum, to correct an error in our recent paper in *Biochemistry* (Manuscript ID bi-2012-015218.R1), with the following text:

“On page 1132, second column, the recombinant Est1 and Cdc13 proteins that were studied by another group were expressed in budding yeast, not *Escherichia coli*.”

This erratum would address our incorrect citation of previously published work which also monitored the interaction between recombination Est1 and Cdc13 proteins.

Sincerely, Vicki Lundblad and Tim Tucey
