Retraction for Wei et al., “The Breast Cancer Susceptibility Gene Product Fibroblast Growth Factor Receptor 2 Serves as a Scaffold for Regulation of NF- κ B Signaling”

Wangzhi Wei,^{a,b} Wei Liu,^{a,c} Clarissa A. Cassol,^{a,c} Weiye Zheng,^a Sylvia L. Asa,^{a,c} and Shereen Ezzat^{a,c}

The Ontario Cancer Institute^a and Departments of Medicine^b and Pathology,^c University Health Network, University of Toronto, Toronto, Ontario, Canada

Volume 32, no. 22, p. 4662–4773, 2012, <https://doi.org/10.1128/MCB.00935-12>. The publisher hereby retracts this article. Questions have been raised by concerned readers about the integrity of the data. The American Society for Microbiology has reviewed the figures and confirmed evidence of apparent manipulation. Since the integrity of the data as presented was compromised, this publication is retracted in its entirety. We apologize to the readers of *Molecular and Cellular Biology* and regret any inconvenience that this causes. The authors did not agree to this retraction.
