It has come to the attention of the authors that a correction is needed in our paper. One of the citations in the paper incorrectly spelled the first author’s last name. The correct citation is: Caputi, T.L., Humphreys, K., 2018. Medical marijuana users are more likely to use prescription drugs medically and nonmedically. *J. Addict. Med.* 12, 295–299. The incorrect spelling of the author’s name occurs in both the reference section and the text of the paper (second paragraph of the discussion). This does not change the findings of the paper. We regret that this misspelling occurred.
