Volume 62, no. 9, e00512-18, 2018, <https://doi.org/10.1128/AAC.00512-18>. Table 2: in the last 2 rows of this table, the $[I]/IC_{50}$ values were incorrectly listed. For ibuprofen with isoniazid as the substrate, the $[I]/IC_{50}$ should read 43.6 instead of 16.7, and for probenidicid with amoxicillin as the substrate, the $[I]/IC_{50}$ should read 16.9 instead of 0.43.
