REASON FOR WITHDRAWAL

This review was withdrawn from the Cochrane Library in Issue 4, 2019, as it has not been updated since its last revision in 2008.

The editorial group responsible for this previously published document have withdrawn it from publication.

WHAT'S NEW

Date	Event	Description
2 April 2019	Amended	Review withdrawn from publication. Please see Published notes for more information.

HISTORY

Protocol first published: Issue 1, 2002

Review first published: Issue 2, 2004

Date	Event	Description
4 July 2008	Amended	Converted to new review format.
20 February 2008	New citation required and conclusions have changed	<p>Substantive amendment. This review contains results from one new trial (Elder 2006) and further data from a previously included study (Knivsberg 2002).</p> <p>In addition, we have learned of an ongoing USA-based Phase I randomized, double-blind, placebo controlled, parallel assignment, safety/efficacy study, which is now within the references of this review. The study is anticipated to be completed in April 2008</p>
