REASON FOR WITHDRAWAL

The Cochrane Skin Group made the decision to allow another team to incorporate the subject of this review into the protocol that they were writing in order to update another review that has been out of date for some years. We feel it makes clinical sense to combine these two reviews.

This review is being withdrawn as it has been updated by incorporation into another broader Cochrane review 'Systemic treatments for metastatic cutaneous melanoma'. The citation for the new review is as follows: Pasquali S, Hadjinicolaou AV, Chiarion Sileni V, Rossi CR, Mocellin S. Systemic treatments for metastatic cutaneous melanoma. *Cochrane Database of Systematic Reviews* 2018, Issue 2. Art. No.: CD011123. DOI: 10.1002/14651858.CD011123.pub2.

WHAT'S NEW

Last assessed as up-to-date: 15 November 2006.

Date	Event	Description
6 February 2018	Amended	This review is being withdrawn. A published note has been added

HISTORY

Protocol first published: Issue 3, 2005

Review first published: Issue 1, 2007

Date	Event	Description
18 July 2013	Amended	This review is going to be updated. We have written a published note to say that this review will be updated by incorporation into another broader Cochrane review. The protocol of this is currently being written
6 September 2008	Amended	Converted to new review format.
