DOI: [10.1200/JOP.2016.018119](https://doi.org/10.1200/JOP.2016.018119)

The July 2016 article by Mengistu et al entitled, “Innovative Strategies for Decreasing Blood Collection Wait Times for Patients in Early-Phase Cancer Clinical Trials,” (J Oncol Pract 12:e784-e791, 2016) contained an error.

An acknowledgement was not provided for this article. There should have been an acknowledgement for **funding from an NCI Core Grant and an NIH CTSA Grant.**

The online version has been corrected in departure from the print. **JOP**

ASCO Immuno-Oncology Program

Use this eLearning program for an overview of immunobiology along with in-depth topics including treatment, efficacy, monitoring, and the management of immunobiologic agents. Composed of 6 sections that are each designed to be completed in 15 minutes, users will gain greater competence in the areas of immunobiology, predictive biomarkers, clinical activity, and more. MOC, CME, nursing, and pharmacy CE available.
