Preface

Complications and Secondary Management and Repair in Head, Neck and Plastic Surgery

Yadranko Ducic, MD, FRCS(C), FACS¹

¹ Otolaryngology and Facial Plastic Associates, Fort Worth, Texas

Semin Plast Surg 2020;34:223–224.

Complications are unfortunately encountered by all surgeons. In this edition of *Seminars in Plastic Surgery*, we have put together a collection of topics whose complications and more importantly their management will hopefully help our colleagues achieve better outcomes and better manage

these difficult patients. I would like to thank all of the authors' efforts and truly hope the reader will enjoy reading these articles as much as we did composing them.

Yadranko Ducic, MD, FRCS(C), FACS
